

Pica-Gel[®] Signalmarker

HIGH-PERMANENT

Pica-Gel Signalmarker

The perfect substitute for tube markers

Quick • Effortless • Economic

- Very easy and effortless handling: No sweaty tube pressing
- Time-saving: Marking works considerably faster than using a tube marker
- Most economic: 1 Pica-Gel substitutes up to 4 tubes of 50 ml each

The innovative "Gel-Lead" makes the difference

- Marks both on glossy and rough materials, no matter if:
 - ✓ dry or wet
 - ✓ rusty or oily
 - ✓ bright or dark
 - ✓ hot or freezing cold
- Most-permanent, after short drying phase
- Excellent contrast – even on dark surface
- Weather & light resistant – ideal for outdoor use
- Marks even underwater
- Mutable line width from 2 - 8 mm possible
- Convenient quiver-cap with integrated sharpener
- Smooth-running high-quality twist-mechanism
- Chloride-free
- Temperature resistant up to approx. 1000°C
